ABOUT ME

Full-Stack Developer - Systems Engineer

#Node.js #Laravel #React #NestJS #MySQL #TailwindCSS #Golang #Odo

WORK EXPERIENCE

GamesPlay.io · Part-time

Full-Stack Developer

[10/15/2025 – Current]

- Spearheaded the end-to-end integration of third-party Casino Games and Payment providers, streamlining system connectivity and ensuring high-availability performance.
- Design and build dedicated Node.js packages that act as middleware, facilitating a direct connection between our system and the provider APIs.
- Develop new functionalities within the backoffice focused on the management and administration of transactions and payment methods.
- Manage technical communication and direct collaboration with providers' engineering teams to ensure successful and seamless API implementation.

Boom Solutions VE · Full-time

Full-Stack Developer

[10/28/2024 – 10/15/2025]

- Development of tech solutions to streamline and automate manual processes boosting operational efficiency.
- Maintenance and enhancement of existing systems, ensuring their performance, security, and scalability.
- Extracting and analyzing database records, reports generation for other departments.
- Training and supporting end-users to facilitate the adoption of new tools and processes.
- Collaborating with various teams to identify company needs, proposing innovative technology solutions.
